

You are invited to join us from July 7th, 2017.

RUN AWAY TO

Iceland₂₀₁₇

Marvel at the power of Iceland's dramatic landscape. Experience volcanoes, geysers, hot springs and lava fields as you walk, bathe, forage and feast. Immerse yourself in the art and culture. Learn the teachings of alchemy, sacred geometry, geomancy and taoist medicine.

The Academy Sacred Geometry is hosting a very special event. We are combining teachings of Alchemy, Sacred Geometry, Geomancy and Taoist Medicine, along with four days exploring Iceland's pristine landscapes. We have many teachers sharing great ideas and techniques for health, healing, new energy systems and understanding the environment and Universe we live in.

Stay at Iceland's first Holistic Health Center: The Heilsustofnun Cente

Iceland tourism has been increasing at over 30% each year and has become a very expensive destination for accommodation, food and transport. We are super pleased to announce we have secured a wonderful venue for our retreat, enabling us to keep fees as low as possible.

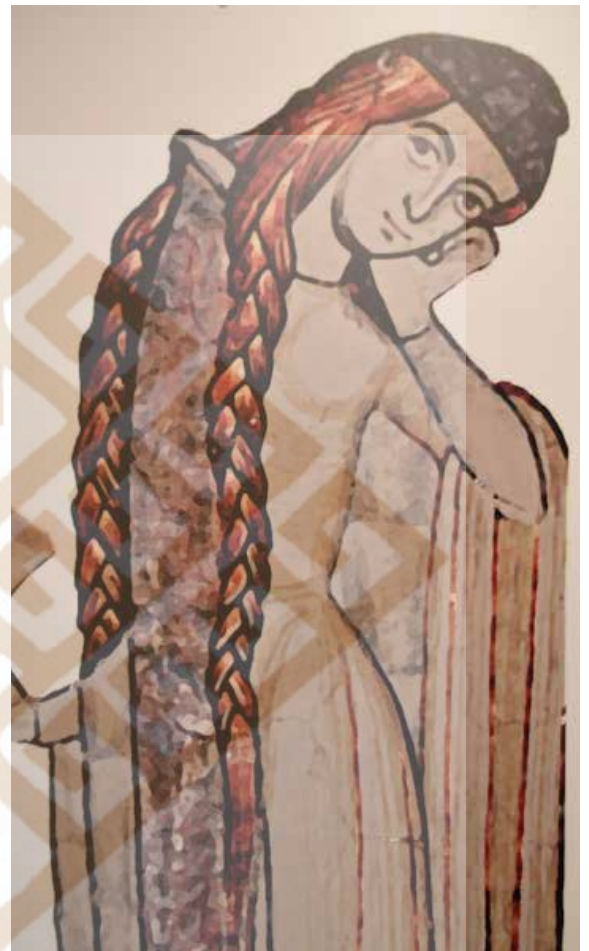

The Heilsustofnun Center (founded by Jonas Kristjansson over 60 years ago) is only 50 mins from Reykjavik airport and is set in beautiful countryside and provides excellent facilities, including its 'healing bathing waters', hot tubs and mud baths, tidy accommodation and excellent food!

July is peak season in Iceland, the summer brings long warm days and mild evenings. For this reason, you must book early to secure your place in this event of a life time!

It takes approximately five hours to fly from New York to Reykjavik, and three hours from London. Thanks to the Gulf Stream, Iceland enjoys a cool, temperate maritime climate, with refreshing summers. Icelandic culture has been shaped by isolation and the extreme forces of nature. These conditions have created a resilient people, the sense of tradition is strong, and the bond with nature is tight. It is one of the safest places in the world, except for the sometimes bad tempered elves.

Our unique program has been specially designed for you to get in touch with the power of Iceland's landscapes. We will have ritual, meditations, walks, wild food foraging, hot thermal bathing and a welcome feast sampling the local cuisine and traditional delicacies in an old Viking house.

What better setting to learn about Alchemy, Plant Medicines and 'Ormes', Taoist Longevity Herbs and Superfoods, Geomancy, Sacred Geometry, Norse Mythology and Viking History, Healing Water Technologies, 'Theraphi' Device and New Energy Systems.

Book now! Limited places available

10 days of absolute fun in one of the most beautiful and magical country in the world!

THE BENEFITS

- Best prices for a 10-day educational retreat ever!
- 90% of food covered in fees
- Study with international experts
- Learn Alchemy, Sacred Geometry, Herbal Tonics and Superfoods, Geomancy and Viking Mythology
- Multi-day trips with modern coach
- Geysers, waterfalls, glaciers, pristine landscapes
- Bath in rejuvenating thermal pools
- Off the beaten track sacred locations with unique geomancy
- Tours with our very special teacher, Dr. Haraldur Erlendsson, our guide and Director of the Heilsustofnun center
- A chance to relax, learn, discover, mediate, walk, drink and be merry

FEATURES:

- Exploring Iceland, 'land of fire and ice'
- Tour the capital city of Reykjavik
- Blue Lagoon- the most famous thermal waters in Iceland
- Journey along the beautiful south coast of Iceland
- Thingvellir national park
- Laugarvatn thermal pools
- World famous Seljalandsfoss and Skogafoss Waterfalls
- Myrdalsjokull and Eyjafjallajokull Glaciers
- Lodmund the mighty solar guardian
- Local horseback riding is available

The Heilsustofnun Center

Excellent facilities include a 25 meter outdoor swimming pool, a 15 meter indoor swimming pool, hot tubs, Jacuzzi, kneipp therapy, dry steam, wet steam-bath and a spa center where massage and other treatments available with various herbal mud baths. Geothermal Mud Bath at Heilsustofnun: Deep heat, which helps relax muscles and relieves rheumatism symptoms and pain in the muscle-skeletal system. Excellent for those who need to seriously de-stress, and also for psoriasis and other skin problems.

We have an incredible line up of presentations, trainings, workshops and tours all beginning on the evening of Friday July 7th 2017. **It does not get better than that!**

You are hanging out with 8 teachers, all your accommodation costs are covered, most of your meals (very healthy food - it's a health center!), free Theraphi Wellness Device sessions. All this surrounded by Iceland's pristine nature, mud pools and healing thermal waters... it's a chance to relax, learn, heal, de-stress and be inspired ... all put together with rock bottom pricing.

Book now because we have secured this unique venue Health Center there is a tight limitation to space, so first in first served to secure your place! Because July is a popular time to be in Iceland so we recommend you book now to avoid disappointment. As soon as you pay your deposit - begin to book your flights to Reykjavik. We have provided information on weather, what to pack, transfers, early booking discounts and payment options.

Again, it does not get better than that!

Hot thermal bathing on warm summer days and cool evenings

THE PROGRAM 2017

• Arrive July 7th • Depart July 16th
A combination of seminars and four days.

WORKSHOPS AND TRAININGS

- Alchemy and Plant Medicines
- Iceland's Sacred Geometry and Nordic Mythology
- Tonic Longevity Herbs, Elixirs and Superfoods
- Golden Mean Ratio, Science and Consciousness
- Healing Water Technologies
- Ormes making workshop
- Theraphi Wellness Device

July 6th Thursday Optional arrival and rest day

July 7th Friday International arrival and transfer
6 to 7pm Dinner
7 to 10pm Start of Iceland Celebration
 Introduction to program and teachers
Presentation: Introduction to Alchemy and Plant Medicine with Paul Harris

July 8th Saturday Breakfast
9 to 12 pm *Classical Alchemy and plant medicine workshop with Paul Harris*
12 to 1pm Lunch
2 to 5pm Local hike / exploration / meditation / thermal pool swim / mud therapy / horse riding

6 to 7pm Dinner
7.30 to 10pm *Classical Alchemy and plant medicine workshop with Paul Harris*

July 9th Sunday Breakfast
9 to 1pm *Classical Alchemy and plant medicine workshop with Paul Harris*
1 to 2pm Lunch
2 to 5pm *Classical Alchemy and plant medicine workshop with Paul Harris*
5.30pm Depart for Dinner/Feast welcome party at Ingólfsskáli "Ingolf's Hall" Old Viking House
8 to 10pm *Evening talk with Dr. Haraldur Erlendsson - Introduction to Iceland culture and Geomancy*

July 10th Monday Early breakfast
 Depart for tour of Reykjavik
 Lunch / free time in Reykjavik

Evening at BLUE LAGOON thermal pool
 Dinner at Blue Lagoon
 Return late to Heilsustofnun.

July 11th Tuesday
9 to 1pm *Ormes making workshop with Paul, Callie, Inga, Josef and Roger*
1 to 2pm Lunch
3 to 5 pm *Tonic drinks and Superfood Elixirs with Inga Bylinkina*
6 to 7pm Dinner
8 to 10pm *Tonic drinks and Superfood Elixirs with Inga Bylinkina*

July 12th Wednesday Early breakfast
 Depart for Thingvellir national park (UNESCO World Heritage Site)
 Walks and meditation
 Lunch
 Journey onto Laugarvatn and enjoy the thermal pool
 Dinner
 Return late to Heilsustofnun

July 13th Thursday Breakfast
9 to 1pm *Scott Olsen, Understanding the Golden Mean Ratio and Sacred Geometry*
1 to 2pm Lunch
3 to 6pm *Scott Olsen Golden Mean Ratio studies*
6 to 7pm Dinner
Evening talk with Dr. Haraldur Erlendsson
 Later relax with mud / water / swim

July 14th Friday Early breakfast
 Depart for Meditations in the Sacred Mountains of the South
 Enjoy the mesmerizing landscapes of the Myrdalsjokull and Eyjafjallajokull glaciers
 Capture dramatic photographs of Seljalandsfoss and Skogafoss waterfalls

July 15th Saturday
9 to 1pm *Water Healing Technology workshop with Josef*
1 to 2pm Lunch
3 to 5pm *Water Healing Technology workshop with Josef*
6pm Depart for Reykjavik Dinner Party

July 16th Sunday Depart for home / transfer to airport
 Or book more days at Heilsustofnun

Tour Days

Waterfalls and glaciers, are some of the greatest sights in Iceland. We will tour through the lowlands of south Iceland with its diverse landscapes of lush farmlands, glaciers, dramatic sandy coastlines and striking waterfalls. This trip will bring you to the amazing Myrdalsjokull and Eyjafjallajokull glaciers and the spectacular Seljalandsfoss and Skogafoss waterfalls. Seljalandsfoss is approximately sixty meters high and you can walk behind the waterfall. You will start to understand why the Icelandic sagas, was a major source of inspiration for Tolkien's Lord of the Rings trilogy. Keep a watch out for the Elves.

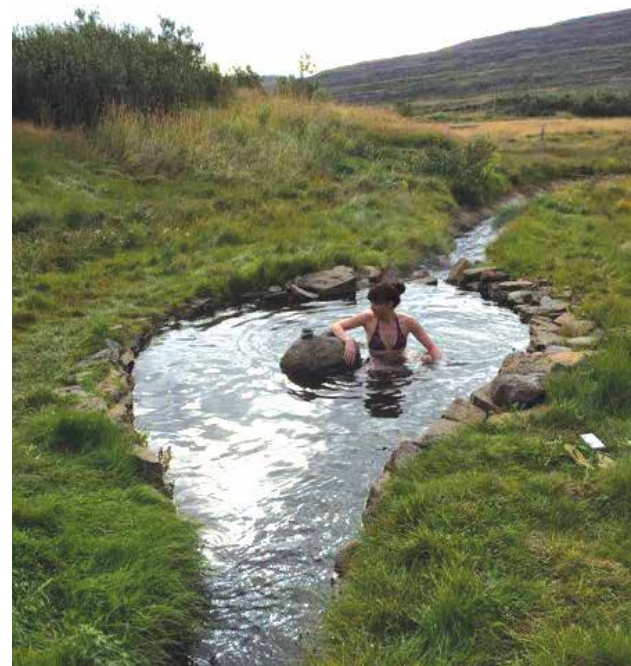

Thingvellir National Park is a UNESCO World Heritage Site, historically it served as a meeting point for the chieftains of the region. The site is located on the mid-Atlantic ridge, where the North American and Eurasian tectonic plates drift apart. It was the center of the country's culture during the Iceland Commonwealth era.

Reykjavik is the largest city in Iceland, and the world's northernmost capital. It was established as a small port by Norwegian and Celtic emigrants early in the 9th and 10th century. It is now one of the most iconic cities in the world, and is a true representation of the culture and traditions of the island. Amongst the many attractions we will visit, Hallgrímskirkja Cathedral can easily be seen from afar, and is considered sacred by the local populace. At 73 metres (244 ft), it is the largest church in Iceland and among the tallest structures in the city. State Architect Guðjón Samúelsson's design of the church was commissioned in 1937. He is said to have designed it to resemble the basalt lava flows of Iceland's landscape and it took 41 years to build.

The region is also famous for its massive geothermal spa, known as the Blue Lagoon. It's located in a lava field near Grindavik, which is 39 kilometers away from the city of Reykjavik. The warm waters of the site are known for curing skin diseases, particularly due to the rich amount of silica and sulfur.

You will start to understand why the Icelandic sagas, was a major source of inspiration for Tolkien's Lord of the Rings trilogy.

Course Descriptions

Evening Talk

Friday 7.30pm, July 7th, 2017

Introduction to Practical Alchemy

Join us for an exploration into the philosophy, theory and practice of the Alchemical Traditions. On Friday evening, you will enjoy a lively presentation with our Alchemy teacher Aurelius Electrum from Canada. This is a good chance for you to get a sneak peek at this weekend's Alchemy workshop and network and socialize with our guides, teachers and other participants from all over the world.

- How to make Plant Medicines • Elixirs • The Magic of Water
 - Advanced Energy Technologies • Sacred Geometry • Ormes "Orbitally Rearranged Mono Atomic Elements" • How to make Spagyrics • The History of Alchemy • Principles and Symbolism
- Advanced trainings:
- The Mysteries of The Egg
 - How to make Alchemical Cosmetics

Saturday, Sunday July 8-9th

The Ancient and Modern Techniques of Alchemy

- Practical Alchemy
- The Art of Distillation
- Learn how to make your own plant medicines
- Introduction and Advanced material is covered
- Practical Alchemy with The Egg
- The Alchemy of Cosmetics

This is a practical workshop and we are setting up an alchemy lab so you can witness the complete experience. This weekend has both introduction level and 'next step' advanced trainings.

We'll look at various laboratory apparatus, their description, set-up and use, as well as laboratory safety. Working with the plant kingdom through the art of distillation we'll create an alchemical menstruum as well as an essential oil for your personal use.

Participants will also take home bottles of the Spagyric tincture and essences we will create in the classes. Learn the history of Hermetic Mysticism and the techniques used by the forefathers of modern chemistry, herbology and medicine. This two-day seminar (plus Friday evening) will provide an in-depth look at both inner and outer alchemy utilizing a wide spectrum of alchemical teachings including Vedic, Taoist and the Western Hermetic Traditions.

The goal of this course is to provide you with a foundation for a physical, mental and spiritual understanding of the fundamental mechanisms of Nature, through the magical spectacles of the Western Esoteric Alchemical Traditions

Join us for an exploration into the philosophy, theory and practice of the alchemical tradition.

What is Alchemy? Alchemy is one of the world's oldest traditions - a unique blend of science and spirituality and it is often referred to as divine chemistry. Alchemy offers a way of living in accord with the patterns of the universe, which can result in magical transformations in your life and has the potential to create a new vision of the world.

Through the learning, understanding and application of alchemical principles, modern science and quantum physics can return to its roots. A great deal of the work is aimed at a mental and spiritual level and transmutation of the Soul.

"In alchemy the egg stands for the chaos apprehended by the artifex, the prima materia containing the captive world-soul. Out of the egg — symbolized by the round cooking vessel — will rise the eagle or phoenix, the liberated soul, which is ultimately identical with the Anthropos who was imprisoned in the embrace of Physis." Carl Jung

Course outline

- Alchemy Philosophy, Theory and Practice
- The role of Sacred Geometry in Alchemy
- Types of Alchemy
- Laboratory Safety
- Lab Equipment
- Distillation Setup
- Rectification of the Spirit of Rosemary
- Three Alchemical Principles in the Three Realms
- Alchemical History
- Paracelsus
- Rudolph II
- John Dee and Edward Kelly
- Tycho Brahe
- Johannes Kepler
- Isaac Newton
- Herbal Tincturing
- Essential Oil Distillation
- Calcination
- Planetary Correspondences
- Alchemical Elixirs
- Spagyric Herbal Tincture
- Spagyric Herbal Essence
- Preparation and Uses of Herbal Elixirs
- Seven Planetary Elixirs
- Preparing for the Mineral Work
- Alchemical Relationships
- Kabbalah

Advanced trainings

The Mysteries of The Egg

- Creating All Natural Alchemical Cosmetics
- Preparing for the Mineral Work
- Rectification of Oil of Egg
- Bottling of Products (take home your samples)

Participants will also take home bottles of the "Oil of Egg" which we will create in the classes.

Spagyrics

Spagyrics "open" medicinal plants completely to release powerful healing properties. The word Spagyrics has its origin in Greek: from *spao*-I collect, and *ageiro* -I extract. It is a method of separating and preserving the hidden qualities (signatures) of plants and minerals in elixirs, tinctures, and powders.

You will discover and master the techniques to "open medicinal plants" and then to "exalt their essence and constituents" and then recombine them into a personal medicine. The result is subtle yet powerful medicines free of the impurities normally associated with their gross material forms. By learning to make tinctures and elixirs and work with essences, you will become healthier, mentally clearer and spiritually stronger for the challenges of the Great Work ahead.

The Oil of Egg

Advanced Alchemical Procedure - Ovum Philosophicum

- What does this Symbol of Life hold in store?
 - Discover the magic and power of extracting its essences.
- This humble shape has a lot to offer us. Considered the symbol of life, we'll take an in-depth alchemical look into everything Egg. We will create powerful medicines with eggs and explore its untapped miracles. Cracking the cosmic egg in Iceland, there couldn't be a finer setting for this profound work!

Introduction to Icelandic culture and Geomancy with Dr. Haraldur Erlendsson

Haraldur will discuss the influential Viking culture of the 9th century and reveal that this culture, often seen as barbaric, was in fact the most successful and educated in Europe. It was heavily influenced by Greek and Christian Culture.

The Nordic culture, strongly influenced by the Woden death culture, was fearless in battle and this set them apart from the rest of Europe. During the 9th and 10th centuries in Norway centralized government was on the increase and many of the fiercely independent local lords moved to Iceland, here their old ways were continued. Through the literature written in the 12th and 13th century the old gods were described as local heroes and the religious secrets were held in the manuscripts. Respect for spiritual experience and encounters with consciousness of the land remained central in Icelandic traditions.

In the book of Icelanders, it is described that one man - Grímur Geitskór, was given the task of finding a place for the national parliament. He was and is the highest paid individual in Icelandic history. He would measure the land and set the place for the midsummer celebrations. He used the money he received as payment to build temples (Hof) around the country.

Haraldur will demonstrate how Grímur and the first settler - Ingólf, approached their projects with the principles of Sacred Geometry. The method is based on defining the outermost points of the land and the islands and drawing lines between them and then finding the golden section point on the line. This is the sacred point.

Haraldur will discuss the main three male gods of space (shore, fertile land and mountain) and the three goddesses of time (past, present and future) and how they are named and arranged in the land.

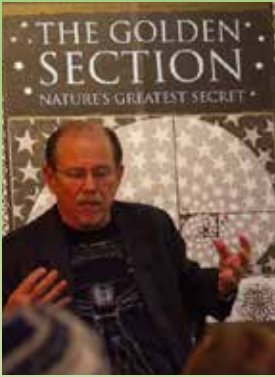

Útisetur, which is at the heart of Icelandic spirituality, Symbology and Mysteries of the North along with the key poem of Nordic mythology Völuspá – The Sibyl's Poem will be investigated. Haraldur will further discuss various places and their gods and how sacred geometry was central to their placements. He will then experiment with the group during the day trips to bring the sacred powers into the body using principles of sacred geometry.

Sacred Geometry... The method is based on defining the outermost points of the land and the islands and drawing lines between them and then finding the golden section point on the line. This is the sacred point.

Sacred Geometry with Dr. Scott Olsen

Sacred Geometry is the blueprint of Creation and the genesis of all form. It is an ancient science that explores and explains the energy patterns that create and unify all things and reveals the precise way that the energy of Creation organizes itself. Mother nature uses geometry everywhere you look, from the spirals of the nautilus shell, galaxies, sunflowers, snowflakes, flower petals, honeycombs and the deepest design of the smallest particles know to humanity! Sacred Geometry was always used in the planning

and construction of religious structures such as churches, temples, mosques and sacred art.

Part one with Scott Olsen - The Golden Section

To those who know how to approach her, Nature will lift her veil revealing a stunning system of elegant aesthetic delights. *The Golden Section* appearing at the center of it all, may well be the foundation of the most beautiful ratio in Nature, and the very bond that holds everything together through ratio, resonance and self-similar harmony. Scott will introduce you to how the Golden Section (Divine Proportion) is the root source of Nature's Eurhythmic Principles of Design. He will demonstrate the beauty, wisdom and pervasiveness of this golden mean in everything from DNA, plants, animals, humans, the solar system, music, quarks, pyramids and hurricanes.

Scott will present startling new scientific developments involving the Golden Section and the dominating role of the Divine Proportion.

In this presentation and discussion, we will examine both the ancient traditions and some of the recent stunning discoveries into the underlying role of a Golden Section centered system of dynamic symmetry. We are literally on the threshold of a new renaissance in consciousness studies, the sciences and arts.

Participants will develop a deep understanding of the role of the Golden Section, Fibonacci and Lucas numbers in Nature and principles of design. We will see how the Cosmos 'fractalizes' from the above down to the below, demonstrating a Hermetic self-similarity at all levels.

Scott Olsen decoded Plato and solved his Divided Line problem, he figured out the nature of the Indefinite Dyad and created a template that derives the square root of 2 and the square root of 3 from the Golden Section and its Reciprocal and Square Root.

- Solving the Mystery of the One & the Indefinite Dyad
- the Divided Line
- the Golden Chalice
- The Pivotal Role of the Golden Section in Modern Science: Biology, Chemistry, Physics, Nonlocality, the Fine Structure Constant.

Scott will also include in this presentation - *Sacred Geometry and the Founding of the Theosophical Society*. The modern founding of the Theosophical Society is uniquely associated with circumstances surrounding a presentation on ancient canons of proportion in the New York apartment of Helena Petrovna Blavatsky and Colonel Henry Olcott. We will look at the 'Felt' connection through work that includes that of New York architect and Theosophist, Claude Bragdon.

Mother nature uses geometry everywhere you look, from the spirals of the nautilus shell, galaxies, sunflowers, snowflakes, flower petals, honeycombs and the deepest design of the smallest particles know to humanity!

Sacred Geometry with Dr. Scott Olsen

Part 2 with Scott Olsen -

Transformative States of Consciousness with Sacred Geometry

We will examine how we are in fact hardwired via the divine numbers to experience transformations of consciousness. Understanding the holographic presence of the entire Cosmos potentially within each of us, students will see how resonance, attunement and entrainment using the numbers can lead to peak experiences, and more complete stages of self-identity, fulfillment & inner contentment with life.

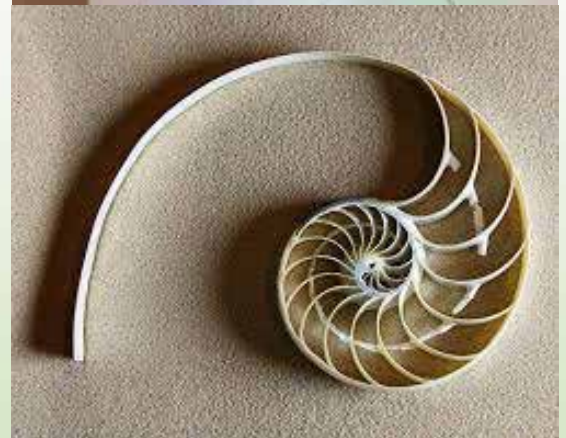

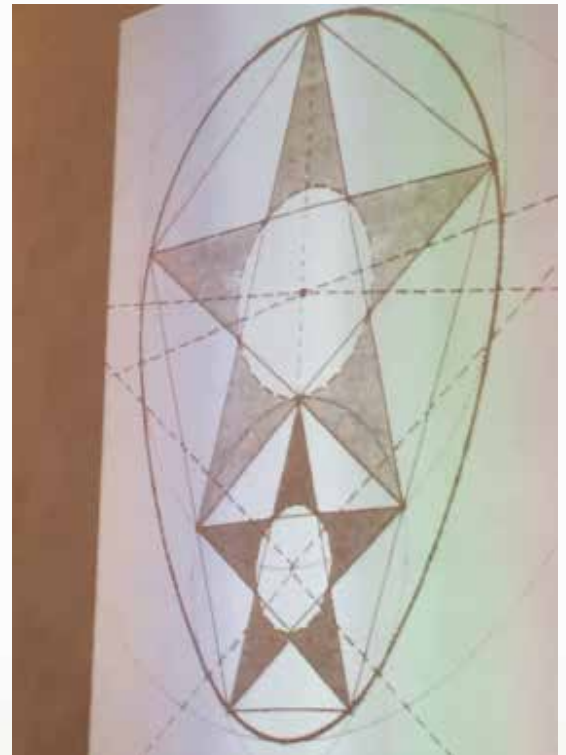

This workshop will break new ground in an area of timeless Perennial Wisdom that has never been adequately addressed, much less explained – at least not openly in a public forum. Following years of painstaking study, personal research, experience, plus timely recent discoveries in quantum mechanics and brain structures, we will examine the overwhelming evidence that Sacred Geometry – through its ratios, proportions and patterns – plays a central role in transformative states of consciousness.

Striking parallels arise in Near-Death Experiences, Vision Quests, and accounts of Initiation. Culling through the evidence of ancient initiatory experiences during the celebration of the mysteries of Eleusis, phenomenal acquisitions of mathematical knowledge by Near-Death Experiencers, and the accounts of Yogis, Astronauts and Vision-Questers in deep non-ordinary states of consciousness, we may well be on the threshold of a realization that illumination – in resonance with sacred geometry – may be the ultimate goal of humanity.

We will look at H.P. Blavatsky's claim in the Secret Doctrine that the mystery of proportional symmetry is revealed during Initiation. We will examine similar striking accounts of mathematical information downloaded during accidental NDEs and purposeful Vision Quests. In the process we will address the most recent discoveries regarding the role of Fibonacci and Golden Section geometry in microtubules and clathrins, the "golden physics" of nonlocality and superposition in quantum mechanics, synesthesia and synchronicity, and striking revelations from Near-Death Experiencers and those who have undergone self-induced illuminatory states of consciousness. It is beginning to look more and more as if the entire Universe and everything in it is holographic, and therefore, self-similar and connected from top to bottom. Our goal may be to achieve states of attunement and entrainment, ultimately leading up to quantum coherent resonance with the consciousness of the Universe itself: Samadhi or Cosmic Consciousness – the state of Homoluminosity!

Self-transformation may well be humanity's ultimate goal. Knowledge of Sacred Geometry attained in NDEs and other transformative experiences appears to play a crucial role. We will examine the evidence.

- Resonance
- Microtubules
- Spider Consciousness
- Eleusis
- Supernormal
- Synesthesia
- Samadhi
- Near Death Experiences (NDEs)
- Vision Quests
- Initiation & Illumination

Healing Water Technology with Dr. Josef Tyls

Health, Energy and the “Alchemical Wonders” of Water, Hydrogen and Oxygen.

Discover the intense power of water and the 'magic' it holds deep inside, the power to heal, cleanse, regenerate and give life to our body, mind and soul. There are many questions regarding water that modern science has yet to understand. Josef Tyls will answer many of them including:

- Exactly what functions does water facilitate on our planet and in our bodies?
- What is the best water to drink?
- Can we unlock the power of water to create energy?
- How can it be used for powerful healing?
- What is the best way to 'energize' it?
- What happens when you add extra hydrogen and oxygen to water?
- What happens when you magnetize water?
- Does water have a memory and how does it retain information?

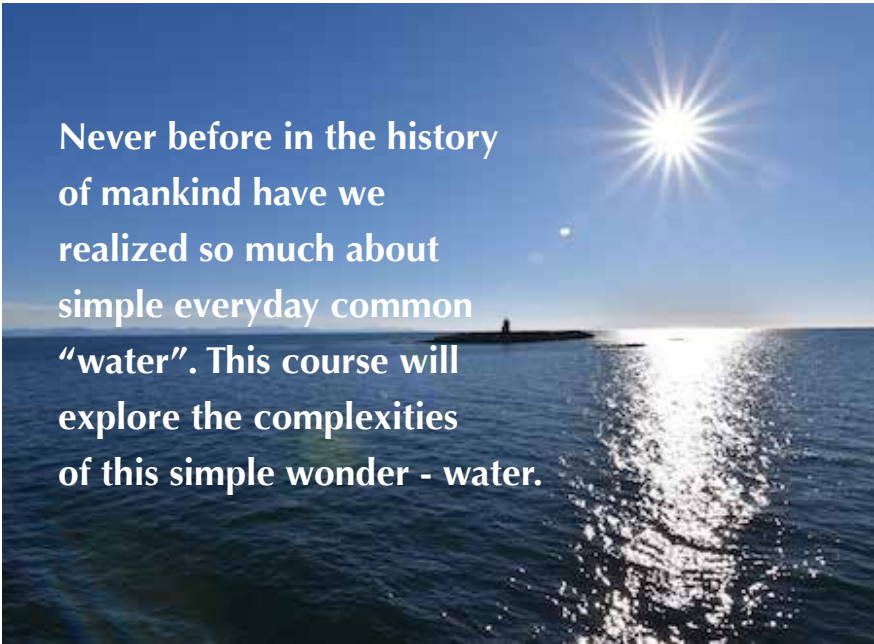

The Nature of Oxygen and Hydrogen

Everyone knows how essential oxygen is for life, but how many realize that Hydrogen plays just as important, if not greater, role than oxygen in the human body and for all life. Hear about cutting edge water spa therapies as well as the great potential that Hydrogen has for healing. You will learn the significance of the golden mean ratio and the frequencies of Hydrogen.

The benefits of oxygen and oxygen therapies for many health conditions, including cancer, infections, cardiac rehab, burns, and more have been well documented. Studies have showed that drinking oxygenated water enhances tissue oxygenation. In a person who suffers from a disease, the mitochondria are often trapped in a perpetual low energy state. The oxygen in water helps increase the membrane's energy potential. Sufficient oxygen isn't enough. You also need healthy blood circulation and adequate hydration to carry oxygen to all the tissues and cells it needs to reach.

It takes a “jolt” to push your low energy levels higher. Once you're ill, this is not something you can do through just drinking regular water or exercising, it usually takes special technologies dealing with water to get these deeper effects.

Bathing in 'healing' water helps patients with severe skin conditions to improve greatly. Bathing regimens have helped remediate several kinds of cancer as well as cognitive decline. Water facilitates ongoing cellular repair and regeneration, aids the detoxification process, and refreshes and re-energizes your body.

Never before in the history of mankind have we realized so much about simple everyday common “water”. This course will explore the complexities of this simple wonder - water.

Course Topics

- What is Healthy Water?
- Acid Vs. Alkaline
- What is 'Restructuring' Water
- Emotions in Water
- Ozone water healing therapies
- Hydrogen water healing therapies
- Healing Waters for degenerative diseases
- Steiner Water Flows
- The Water Wizard - Victor Schaubeger
- The Mysteries of Water and Hydrogen
- How does Hydrogen manifest itself from the 'ether' (the Golden Question)?
- The Golden Ratio of Hydrogen
- Recent discoveries into the theory of water
- How to increase soil health and agricultural yields
- Hydrogen as a form of energy production
- HHO / Hydroxy / Browns gas uses in healing
- Extending life with electric field technologies
- Cold Fusion, LENR technologies
- What is the future of Hydrogen?

Sacred Geometry, Fractals and the Nature of Water

Designing and maintaining life is the essence of the **Hermetic Project**. It is the difference between life and death, and can be the turning point in the evolution of civilization. Representative of our global scientific and philosophical heritage, Sacred Geometry and the Golden Mean Ratio is now being rediscovered and applied to cutting-edge physics, hydrogen, water and many breakthrough technologies.

It is from this deep wisdom and understanding that Sacred Geometry and Alchemy are able to provide us with powerful medicines. Many scientists can now provide evidence that the shape of the universe is a Stellated Dodecahedron. This shape is capable of producing the perfect fractal, the stellated dodecahedron causes perfect charge collapse (implosion based on the Golden Mean) that creates gravity. The Golden Mean allows for the addition and multiplication of waves of charge and energy.

The centripetal, conjugate and fractal (therefore Negentropic) electric magnetic fields accelerate life and all living systems. The Golden Ratio is the wave solution to constructive compression implosion, phase conjugation, negentropy and therefore life force, perception, and consciousness. All biology remains alive to the extent its electric-magnetic field is centripetal. That's what holds it together.

A good definition of a Fractal is "Fractals exhibit self-similarity, meaning their inner structure has the same pattern as their outer structure (like a pine cone or a fern tree)". Fractality describes the geometry of waves of energy or charge, and manifest as wave patterns that evolve ad infinitum - like an encoded thread linking larger spirals to infinitely smaller ones. Only the Golden Ratio allows for constructive interference of wave addition and multiplication.

Leading scientists, Dan Winter, Andrei Linde and El Naschie have found fractals helpful in modeling the behavior of the universe, and they are currently spearheading research suggesting that the fractal nature of space may actually be the cause of gravity. World famous research scientist El Naschie has calculated groundbreaking mathematics proving the universe is a fractal based on the Golden Ratio. The work of Alain Connes has shown that non-commutative spaces naturally evolve toward fractality. In fact, most astrophysicists

Tonic Longevity Herbs, Elixirs and Superfoods with Inga Bylinkina

In this engaging class Inga will explore the ancient and time tested strategies to address our most common modern day health concerns, such as toxicity, weight gain, hormonal imbalances, nutritional deficiencies, stress, fatigue, digestive issues, and chronic lifestyle illnesses.

What you will get out of this workshop:

- Find out about specific herbs and superfoods that support gentle whole body cleansing and sustainable weight loss
- Learn to make delicious tonic elixirs and smoothies that boost health and longevity, balance the emotions and lift the spirit
- Get simple detoxification and weight loss protocols, and valuable self-care strategies for a lifetime of wellness
- Get insights into how to customize elixirs for any health challenge that life may throw at you.
- Taste some potent and nourishing brews and receive recipes to take home and apply to your daily health enhancing routine.

The presentation will start with an introduction to *The Art of Radiant Health*, the ancient Taoist system of Three Treasures, and the world of Tonic Herbalism. Tonic herbs are considered superior medicine for keeping the body healthy, in balance and naturally increasing our energy level. They are essential for managing chronic illness and helping the body rebuild its own natural defenses. Current research indicates that herbs such as Gynostemma, Astragalus, Schizandra, Dang Quai, He Shou Wu, Reishi and Cordyceps help our bodies manage the stress response.

We'll look at what Superfoods and learn how to plug nutritional gaps in your diet using superfood nutrition and practically apply the principles of "Food as Medicine".

We'll explore the Elixir Craft! Crafting elixirs that combine tonic herbs and superfoods is a fun and inspiring process.

We will discuss:

- Anatomy of a superfood elixir and principles of herbal alchemy
- Innovative way to use superfoods and herbs in warm smoothies
- Guidelines for taking herbal elixirs to get the most benefits

Theraphi Wellness Device

Free sessions at the Iceland Celebration!

The Theraphi is a new and revolutionary healing device inspired by Nikola Tesla's pioneering efforts in electromagnetic fields. The use of electromagnetic waves for therapy has been well documented for over 60 years. Biological systems use longitudinal electromagnetic waves. The Theraphi system tailors these specific wave forms, generating a rich information field. This kind of strong charge field is by definition the electrical opposite of swelling, cyst and tumor growth.

What does it do?

The Theraphi therapy sessions are holistic and non-invasive during which the cells of the body are enveloped in a powerful plasma bio-active field. The resultant wave field restores order to the body's cellular regenerative system by reversing the disease process. This technology has huge potential for pain reduction, longevity, enhancing the immune system and reducing healing times.

Applications include:

- Pain reduction
- Swelling reduction
- Cell memory reversal
- Wound regeneration
- Stem cell switching
- Reducing the effects of aging

The Art of ORMES: A practical Workshop

The term ORMES comes from "Orbitally Rearranged Mono Atomic Elements". Ormes is a source of trace elements and minerals which are extracted from sea water using a unique process. Ormes materials are thought to be the precious metal elements in a different atomic state. They are anti-aging minerals, and on the cutting edge of superfood nutrition.

It is a way of capturing the 'Life Force' and Prana and "Bio Photons"

Learn how you can capture and utilize these amazing elements. Join us in uncovering the ancient history and modern use of this unique state of matter.

- Learn the powerful healing effects of these minerals.
- Learn how to make them in your own home and save many dollars.
- The precious metals known to exist in this 'ormes' state are known as the "light and heavy platinum group".
- They are cobalt, nickel, copper, ruthenium, rhodium, palladium, silver, and osmium, iridium, platinum, and gold.
- These minerals are known as super conductors and can in a monatomic, high spin state and lose their chemical reactivity and metallic nature

The ORME represents a huge subject area, involving state-of-the-art chemistry, physics, physiology and interpretations of Sumerian, Egyptian and other histories including the Alchemical Western Esoteric Traditions.

Use in Agriculture

They attract light energy (photons) which is a major reason for increased growth and production in covered crops, full moonlight, cloudy conditions and for higher photosynthetic activity of the treated crops in general. They have the unique ability to remain stable in the monatomic form and this makes them biologically compatible and easily assimilated or absorbed at a cellular level, hence increasing nutritional density in plants and causing stronger and rapid growth.

Meet The Teachers

Dr. HARALDUR ERENDSSON, MD (ICELAND) is an eminent Icelandic psychiatrist and Medical Director and CEO of HNLFI medical rehabilitation clinic. He is a specialist in the treatment of psychological trauma. He has long had a keen interest in the esoteric, particularly dream symbolism and yoga. His recent novel, 'The Man Who Drew Triangles', draws on his research into earth energies and sacred geometry. Haraldur will accompany us on all of our day tours and give lectures on Iceland History, Geomancy and Norse Mythology

Haraldur was born in Denmark and raised in Iceland. His fascination with the spiritual began in his teens. He has maintained a life-long interest in the study and practical application of the spiritual practices of different religions including shamanism and esoteric tantra.

Haraldur studied medicine and later trained in neurology in Iceland and worked in general practice. Treating victims of natural disasters led him into the field of psychological trauma and psychotherapy. He trained and worked in the UK as a psychiatrist for many years, specializing in treating severe psychological trauma and borderline personality disorder. He is a member of a special interest group at the Royal College of Psychiatrists interested in the overlap between mental illness and spiritual experiences. He is a pioneer of research into the application of sacred geometry, place names and shamanic techniques to unlock ancient earth mysteries.

PAUL HARRIS is a Canadian inventor and researcher. He has taken a multidisciplinary knowledge-based approach to a wide area of studies including Herbolgy, Permaculture, Water Technologies, Alternative Fuel and Energy Systems, Electronics, Chemistry and Plasma Physics. Paul has found this diversity necessary in understanding the fundamental principles behind the workings of nature. He has taught courses on practical Alchemy, Sacred Geometry, and alternative energy systems for the past 20 years.

Paul has engineered the Theraphi Wellness Device (www.Theraphi.Tech) which uses a non-destructive single carrier wave to modulate complex waveforms, creating multiple RF induced fields mixed in an ion plasma tube, referred to as 'The Conjugator'. The Theraphi system uses longitudinal EM waves and time-polarized EM waves that penetrate every cell and atomic nucleus in the body. The fact that such signals can reverse nearly every major cellular illness of the body has been proven by Priore. The electrodynamics that results from this technology are part of the emerging "Fractal Unified Field Theory".

CALLIE ROANG is a co-creator and Soeur Mystica with her partner Paul Harris in the great work of relationship, Alchemy & all things Theraphi (with client sessions being her focus). She is an activist for consciousness, practitioner of Kriya Yoga, meditation & qi gong and leads groups in her own stylized energy fusion practices and Taoist feminine teachings.

Callie follows the sacred pulse of life guided by the Law of Love. She delights in intimacy with life, oneness awareness, inspired writing and poetry. Callie has also been a therapist in the healing arts for over 20 years. Through her company *Conscious Creations*, she provides spiritual-based counseling, energy work, emotional balancing, Thai massage, community circles and retreats.

Dr. SCOTT A. OLSEN, Ph.D. (USA) is a Professor of Philosophy & Religion at the College of Central Florida. Scott first received international acclaim by successfully decoding the geometric mysteries of Plato. His book, *The Golden Section: Nature's Greatest Secret* received rave reviews, and in 2007 was awarded a 1st place for design by the Bookbinders' Guild of New York. A life-long student of the Ancient Wisdom, he has studied under physicist David Bohm, world religion expert Huston Smith, sacred geometers Keith Critchlow & John Michell and esotericist Douglas Baker. A member of the Theosophical Society in America, Scott lectures widely on the Perennial Philosophy (in both its ancient and modern forms) with special emphasis on the Divine Proportion and transformative states of consciousness. In 2009 he assisted Alexey Stakhov with his highly acclaimed book, *The Mathematics of Harmony: From Euclid to Contemporary Mathematics and Computer Science*.

Dr. JOSEF TYLS is an industrial engineer. He was born in the Czech Republic and became a Canadian citizen in 1972. In 1985 Josef developed a unique high definition three-dimensional holographic audio system specifically designed for healing purposes. By 1992 Josef Tyls was recruited by Dr. Carlos Fenton Mason D.Sc. of Mato Labs to design and engineer medical ozone generation systems capable of continuous use without degradation. He developed the hyper oxygenation process that became the fundamental technology platform for his company Vancouver Oxygen research Technologies Ltd. which was then licensed to and still in use by the Avani Water Corporation in Burnaby B.C.

Josef has been involved with systems technology design throughout his working career and has successfully brought to market many of the technologies for nearly 30 years. He has built a variety of derivative and other innovative water purifying and enlivening systems, using the teachings of great water inventors like Walter Schaubberger. Schaubberger's assertions of the life force in drinking water being the quintessential electrolyte for all living things, form the philosophy behind the Josef Tyls water processes. When water is synthesized, recovered, precipitated, condensed or remediated and then energized, revitalized, re-oxygenated and kept active in storage, it again becomes the nourishing invigorate that we all need for life.

His field of expertise covers all aspects of industrial engineering, electronics design and development, biology and bio-oxidative medicine, electro-medicine, water processing, and high definition audio systems used for healing. His deep understanding of the fundamental structure of matter and its interrelationship with human consciousness is the basis of many of his unique technologies. The list of mentors, which Josef has studied and developed his technologies from: Dr. Nicola Tesla, Victor Schaubberger, John Worrell Keely, Dr. Walter Russell, and many other pioneers of quantum physics.

INGA BYLINKINA is a practicing herbalist, healing nutrition coach and energy healer. She grew up in the Russian countryside, immersed in the herbal folklore and old-school healing traditions. Since childhood Inga developed a fondness for plant medicine and is now a passionate advocate of natural healing and seasonally attuned holistic approach to health and life.

After moving to the US she studied Traditional Chinese Medicine, Ayurveda, Daoist longevity practices, holistic nutrition, craniosacral therapy and various natural healing modalities. Inga's path and purpose is to educate us on how we can cultivate a deeper connection with the natural world and our body's innate intelligence through the use of plant medicines and health cultivating practices. Besides working with private clients, Inga is also co-director and instructor at Academy of Healing Nutrition in NYC. She teaches workshops on food as medicine, herbal remedies, superfoods, medicinal mushrooms and elixir craft in the US and Europe.

MR. ROGER GREEN, a New Zealander, is an international businessman based in New York and has been active for over 30 years in alternative energy systems, Eco-Design initiatives and Natural Healing education around the world. Mr. Green is a pioneer in modern day Natural Healthcare incorporating both eastern and western themes, having presented in over 70 countries. He is the Founder of the Academy Healing Nutrition based in NYC, a 30-year curriculum specializing in food and herbs as medicine, where he has assisted thousands in their recovery from disease through natural healing methods.

He is the Director of the Academy Sacred Geometry. He has sponsored dozens of special and unique educational events, including study tours to China, Tibet, Peru and India, over 14 International Conferences in Sacred Geometry, Feng Shui and Ecology, retreats and tours of South France and the Alchemy of Prague celebrations.

In 2008, he founded the Breakthru-Technologies Company, which is moving forward several projects including: The Theraphi Wellness Device, Waste to Energy technology (prototype built), Ecat Technology (cold Fusion), the supplement 'Telostep' that increases the length of 'telomeres', the 'Bloom the Desert' project, the Fractal Wave Software for stock market analysis and an 'Ormes' based agricultural product called Sea Jing.

Booking Information The Complete Package 10-day event!

PAYMENT PLANS

Pay by 1st May, 2017 = \$3500 USD

- Pay \$600 deposit by 1st March, 2017 to secure your place and discount.
- Pay remaining fee (\$2900) by 1st May.

Arrive 7th July

Based on twin share accommodation (per person). Add \$600 for single room accommodation (if available). (Add \$200 if arriving one day early on July 6th)

- Save \$400 by booking early

Pay after 1st May, 2017 = \$3900 USD

Arrive 7th July

Based on twin share accommodation (per person)
Add \$600 for single room accommodation (if available)
Add \$200 if arrive one day early on July 6th

Includes:

- All accommodation at Heilsustofnun Center
- All meals at Heilsustofnun center
- All tuition for workshops, trainings, lectures and presentations
- All guide fees and tour coach / transportations

Excludes:

- Airfares and transfers from airport
- Tourist entry fees
- Welcome dinner and drinks at the Old Viking house
- Health spa treatments at the Heilsustofnun Center
- Blue Lagoon Thermal pool entrance
- Meals on our 3 tour days (lunch and dinner)
- Extra drinks

Payment

- PayPal
- Credit cards MC, Visa, Amex
- Bank Transfer
- Checks in \$USD

Refund policy

Full refund minus admin fee of \$250 available up to 30 days before retreat commencement (June 6th). After June 6th, full refund minus \$600 admin fee.

Weather

Mild summer days and evenings.
Can rain from time to time.
Cooler evening breezes.

Average for July: 50-55°F (10-12°C) with a low of 45°F. The biggest factor in Icelandic weather is its unpredictability, so it is wise to be prepared for anything.

What to pack

- Cotton clothing
- Set of warm clothes
- Wind breaker, scarf and hat
- Rain coat and warm jacket
- Smart casual for our dinners
- Good walking shoes
- Camera
- Lecture notebook and pens
- Sense of humor

Notes

- Participants must make their own travel arrangements to and from Reykjavik, Iceland. Arrive at Reykjavik-Keflavik International Airport no later than the afternoon of July 7th.
- Allow one-hour transfer from airport to Heilsustofnun Center.
- Program begins at 7pm, 7th July.
- You can arrive on 6th July if you wish with extra accommodation and food fee.
- Payment does not cover transfer from airport to Heilsustofnun center.
- Taxis are available at airport.
- Let us know your arrival times via our Facebook page and we will help to coordinate a shared taxi if you wish.
- On the final day we will help organize a group transfer back to airport.
- July is a popular time to be in Iceland so book flights as soon as possible.
- Single room rates are available. Rooms are based on twin share (we will link you up with a room friend if necessary).
- All payments are in USD.
- Heilsustofnun Center provides free WiFi access.

Travel Agents & Online Bookings

All participants are responsible for booking their own air travel. For online bookings of discounted air tickets, useful websites include: www.kayak.com, www.orbitz.com and www.cheaptickets.com.

Travel Insurance

Don't forget to get your general Travel Insurance (optional, your decision, but strongly recommended). You can purchase travel insurance from your own travel agent, or from online options such as:

www.travelinsured.com
www.travelguard.com.

Identification & Visas

All visitors to Iceland must carry a passport, valid at least 3 months beyond the return date. No visa is required for visits under 90 days for passport holders in the U.S., Canada, Great Britain, Ireland, Australia, New Zealand, and many other countries. See (<http://utl.is/index.php/en/who-needs-a-visa>) for a list of nationals requiring a visa to enter Iceland.

Money

Iceland's monetary unit is the krona (sometimes abbreviated as "ISK," but written as "kr" , plural kronur. Coins come in 1, 10, 50, and 100 kronur denominations; banknotes are in denominations of 500kr. ATMs are the most practical and reliable way to get cash at fair exchange rates. Upon arrival at Keflavik International Airport, you'll easily find ATMs and the currency exchange desk. Please remember to advise your bank that you will be making purchases abroad, since many banks will err on the side of caution and assume your card has been stolen and might suspend it temporarily. In Iceland you'll need a PIN to withdraw cash advances on your credit card. You will need a PIN for most credit card purchases.

Water

Iceland has some of the world's best drinking water, tap water is safe to drink.

Tipping

Icelanders don't tip, not even in restaurants or taxis.

Time

Iceland is always on Greenwich Mean Time, with no Daylight Saving Time. In Summer, Iceland is 4 hours ahead of the eastern U.S. and 1 hour behind the U.K.
