The Emerald Tablet, famous for its declaration "as above, so below," is a cornerstone text of alchemy. The Emerald Tablet is one of the root texts of alchemy, a brief alchemical work attributed to Hermes Trismegistus. This publication is a collection of new translations by Brian Cotnoir of the earliest extant Arabic and Latin versions with accompanying essay and commentary.

Talk, Discussion, and Demonstrations

We will examine Rupescissa's De Quinta Essentia (*translations of the relevant sections will be given out*), discuss its relation to the Emerald Tablet, and consider ways the quintessence can be extracted from various substances such as wine and gold. This is a practical workshop with a Alchemical Lab set up.

Distillation and ORMES making with
